THE WHITE HOUSE
WASHINGTON

August 14, 1997

Warm greetings to everyone gathered in Nashville, Tennessee, for the 104th annual meeting of the Association of Military Surgeons of the United States.

For more than a century, AMSUS has proven to be an invaluable asset not only to members of our Armed Forces and their families, but also to the entire health care profession. By seeking the newest and most promising developments in the practice of medicine, you are contributing significantly to the quality of health care in our nation. Your efforts to advance research and share knowledge have helped to save lives and bring hope to many.

You can take great pride in this tradition of professional excellence and compassionate care. As our nation prepares to meet the challenges of the 21st century, we will continue to rely on your steadfast commitment to improving the availability and quality of health care in America. On behalf of all those who benefit from your services, I thank you for your hard work and sacrifice to ensure the well-being of our men and women in uniform and of all your fellow citizens.

Best wishes for a wonderful event.

Bill Clinton

COMMITTEES FOR THE 104th ANNUAL MEETING

Committee on Arrangements

General Chairperson:

Major General John J. Cuddy, DC, USA

Members:

Colonel James R. Fischelli, USAF, MSC
Colonel Janie Harrell, AN
Colonel Stanley J. McNeme, DC, USA
Lieutenant Colonel John F. Rothstein, USAF, Ret., MSC
Commander Alfred L. Sides, MSC, USN, Ret.
Ms. Virginia C. Stephanakis, USA
Brigadier General Russ Zajtchuk, MC, USA

Awards Committee

Chairperson:

Colonel William P. Madigan, MC, USA

Members:

Mr. Michael A. Dunlap, VA
Captain William J. Lynch, MC, USNR
Rear Admiral Carolyn Beth Mazzella, USPHS
Colonel Virginia F. Randall, MC, USA
Colonel Barry H. Thompson, USAF, MC

Core Program Committee

Chairperson:

Brigadier General Russ Zajtchuk, MC, USA

Members:

Charlotte F. Beason, Ed.D., R.N., VA
Colonel Emmanuel G. Cassimatis, MC, USA
Captain Gary J. Harpold, MC, USNR
Lieutenant Colonel Wendy A. Martin, USAF, NC
Rear Admiral Kenneth Moritsugu, USPHS

Dinners and Luncheons Committee

Chairperson:

Lieutenant Colonel John F. Rothstein, USAF, Ret., MSC

Members:

Captain Robert Falter, USPHS
Lieutenant Commander Christine M. Grabowski, MSC, USNR
Lieutenant Colonel David H. Gwinn, USAF, BSC
Major Casper Jones, MSC, USA
Mr. N. Mack Sisson, VA

Exhibits Committee

Chairperson:

Colonel Stanley J. McNeme, DC, USA

Members:

Commander Susanne Caviness, USPHS
Colonel Michael J. Dickerson, USAF, MC
Mr. H. Bernard Palmer, VA
Major Eron G. Manusov, USAF, MC
Lieutenant Commander Richard E. Wolfe, MSC, USNR

International Committee

Chairperson:

Commander Alfred L. Sides, MSC, USN, Ret.

Members:

Captain Vivian Chen, USPHS
Captain Patricia M. Collins, NC, USNR
Mr. Kenneth E. Cox, DoD
Colonel Nancy Elliott, USAF, BSC, Ret.
Emilio Romero, M.D., VA
Captain Paula Ryals, MC, USNR
Commander Howard T. Sixsmith, Jr., MSC, USN, Ret.
Major Jayne E. Stetto, USAF, NC

Publicity Committee

Chairperson:

Ms. Virginia C. Stephanakis, USA

Members:

Colonel (S) Tina Holmlund, USAF
Captain Sheila A. Graham, USN

GENERAL INFORMATION

THE ASSOCIATION

was established in 1891 and incorporated by Act of Congress in 1903. The Constituent Services of the Association include the Medical Departments of the U.S. Army, U.S. Navy, U.S. Air Force, U.S. Public Health Service, and the Department of Veterans Affairs. It is the Society of the Federal Health Agencies, and as such contributes to the improvement of all phases of the Federal health services.

THE 104TH ANNUAL MEETING

will once again focus on the three day plenary sessions with service breakout sessions providing enhancement of the message presented in the plenary sessions. Educational value and maximum awarding of continuing education credits have received primary emphasis in the planning of the 104th Annual Meeting. The agenda has been developed to emphasize federal medicine and will take advantage of the unique forum offered by the AMSUS Annual Meeting and its attendees.

OBJECTIVES

Through the multifaceted approach of panel discussions, professional and scientific papers, meet-the-investigators sessions, film and video tape presentations and a diversified and comprehensive technical and scientific exhibit, participants will be able to:

1. Discuss alternative health care management procedures.
2. Generate strategies for more cost effective health care delivery.
3. Generate alternative responses to mass casualty situations.
4. Apply current concepts of state-of-the-art medical knowledge and technology which will enhance patient care.

OUTCOME

The anticipated long-term benefits of this program include:

1. More skilled applications of Federal health care management skills.
2. More closely correlated cost-benefit ratio of health care delivery cost for inpatient and outpatient systems.
3. Improved patient care.

CONTINUING EDUCATION CREDITS

CME, CNE, ACHE, and General Education packets may be picked up at the Continuing Education Desk in the registration area. Please pick up these materials prior to attending sessions. The materials will include all the educational objectives for those sessions which have been approved for credit, evaluation forms, and further instructions. To determine which sessions have received approval, please refer to your Continuing Education packet. The Continuing Education Desk will be staffed from 7:30 a.m. - 5:00 p.m. each day and will extend hours until 6:00 p.m. on Wednesday, November 19.

Continuing Medical Education for Physicians

The Uniformed Services University of the Health Sciences (USUHS) is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to sponsor continuing

medical education for physicians. USUHS designates this continuing medical education activity for up to 34 hours in Category I of the Physician's Recognition Award of the American Medical Association. *Please note: the number of credit hours is subject to change. Check with the Continuing Education Desk in the registration area to determine maximum number of credit hours available.*

Continuing Nursing Education

The Uniformed Services University of the Health Sciences, (USUHS) is accredited as a provider of continuing education in nursing by the American Nurses Credentialing Center's Commission on Accreditation (ANCC). This program has been awarded 35.0 contact hours in Educational Design I. *Please note: the number of credit hours is subject to change. Check with the Continuing Education Desk in the registration area to determine maximum number of credit hours available.*

American College of Healthcare Executives Continuing Education

This course is sponsored by USUHS which has been designated as a pre-approver of programs for Category II (non-ACHE) continuing education credit. The USUHS is authorized to award hours of pre-approved Category II (non-ACHE) continuing education credit toward advancement, recertification, or reappointment in the American College of Healthcare Executives. Participants wishing to have the continuing education hours applied toward Category II credit should list their attendance when making application to the American College of Healthcare Executives for advancement, recertification, or reappointment. *Please inform the personnel at the Continuing Education Desk if you are a member of the ACHE. The final tally of hours for Category II (non-ACHE) credit will be available at the Continuing Education Desk in the registration area.*

General Continuing Education

The Uniformed Services University of the Health Sciences (USUHS) designates this continuing education activity for up to 38 hours in general education. Certificates of Attendance will be provided to non-physicians, non-nurses, and non-ACHE members indicating total hours attended.

YOU MUST ATTEND THE ENTIRE PRESENTATION TO RECEIVE CREDIT. DO NOT SUBMIT A TALLY FORM IDENTIFYING ATTENDANCE AT MORE THAN ONE PRESENTATION DURING THE SAME TIME PERIOD

Certificates of Attendance will be distributed after you attend your last presentation. Please complete and return the evaluation forms and signed tally form to the Continuing Education Administrators, CPT Tim Osbon and SSG Keith Haddock, prior to your departure.

Please note: Accreditation of this course refers to the education activities only and does not imply Commission on Accreditation approval or endorsement of any product.

Dental Section

Applications for continuing education will be distributed at Dental Section Meeting.

Optometry Section

Documentation of attendance will be made available at each session.

THE AMSUS BOOTH

Join the Association at the AMSUS booth located in the Ryman A of the Opryland Hotel. Please stop by for membership information, insignia orders, and *MILITARY MEDICINE* journal information.

AMSUS ANNUAL BUSINESS MEETING

The Annual Business Meeting will be held in Davidson D of the Opryland Hotel on Tuesday, 18 November, 1:40-2:00 p.m. AMSUS members are encouraged to attend.

EDUCATIONAL GRANTS

We gratefully acknowledge educational grants from SmithKline Beecham Pharmaceuticals and Wyeth-Ayerst Laboratories. SmithKline Beecham Pharmaceuticals is located in booths 719 and 721 and Wyeth-Ayerst Laboratories is located in booths 524 and 525.

105TH ANNUAL MEETING

The 105th Annual Meeting of AMSUS will be held 8-13 November 1998, in San Antonio, Texas.

U.S. Public Health Service

Days: Service Dress Blue

Sun. Evening 11/16/97: Service Dress Blue

Wed. Evening 11/19/97: Mess Dress Blue or Equivalent

MILITARY MEDICINE

Military Medicine is the official monthly publication of the Association of Military Surgeons of the U.S. It supports expansion of the growing body of medical knowledge and serves as a medium for exchange of scientific ideas and information. *Military Medicine* provides a means of communication among members, allowing

them to keep abreast of changing scientific, technological, and political developments in the field of medicine. It offers a prestige publication for member contributions as well as those of other outstanding specialists.

Military Medicine comes without additional charge to all members and is sent to each of the Federal Medical Centers and Hospitals. Many periodical and abstracting media review its contents.

HOUSING ACCOMMODATIONS

The AMSUS Convention Office would like a report of each instance of a delegate being refused confirmed accommodations on the confirmed arrival date. Accommodations should have been booked through the Housing Bureau. During the convention, notify the AMSUS Headquarters in the Two Rivers A, Opryland Hotel. After the convention, call the AMSUS Convention Office at (301)897-8800.

REGISTRATION

All in attendance must register and wear the AMSUS badge.

Hours of Registration

Saturday, 15 November	5:00 p.m. - 8:00 p.m.
Sunday, 16 November	9:00 a.m. - 6:00 p.m.
Monday, 17 November	6:30 a.m. - 5:30 p.m.
Tuesday, 18 November	7:00 a.m. - 2:00 p.m.
Wednesday, 19 November	7:00 a.m. - 12:00 noon

Registration Fees

Member	\$175
Non-Member	\$235

Life members, speakers, exhibitors and students are exempt from paying registration fees.

EXHIBITS

This communication medium was established as an educational service to provide delegates to the Annual Meeting important information on the development of drugs, chemicals, equipment systems, products, and services relevant to their specialties, interests, and responsibilities. The Exhibits Program reflects special emphasis on pharmaceuticals, diagnostic, laboratory, x-ray, therapeutic devices and services, and casualty handling equipment, along with general medical supplies. Visiting hours have been scheduled to provide ample time to review the more than 200 scientific and technical displays and confer with their monitors.

Exhibits are open:

Monday, 17 November	9:00 a.m. - 4:00 p.m.
Tuesday, 18 November	9:00 a.m. - 4:00 p.m.
Wednesday, 19 November	9:00 a.m. - 3:00 p.m.

MESSAGE FROM THE FEDERAL MEDICAL CHIEFS

This meeting has been designated a Major Medical Meeting for purposes of issuance of orders to attend. All Federal health services officers, warrant officers, non-commissioned officers (grade E-5 to E-9) and civilians (GS-7 and above), are encouraged to request attendance and participation.

GUARD AND RESERVE MEMBERS

The Chiefs, Army, Navy and Air Force Reserves, and the Chief of the National Guard Bureau have authorized the awarding of promotion and retirement points for attendance.

ANNUAL DINNER INFORMATION

Registered delegates and guests who hold tickets for the Annual Dinner must visit the Annual Dinner Booth to sign up for table seating before 10:00 a.m. on Wednesday, 19 November. The booth is located in the Ryman A of the Opryland Hotel.

A vegetable plate or fish entree may also be requested at this booth, before 12:00 noon on Tuesday, 18 November. Dinner tickets will be on sale until 2:00 p.m., Tuesday, 18 November.

AMSUS AWARD GRANTS

We gratefully acknowledge the long and faithful support of the following Sustaining Members and Chapters whose contributions to AMSUS on behalf of the awards program make it possible for the Association to recognize the outstanding accomplishments of its many health care providers.

Baxter Healthcare Corporation
Bayer Corporation, Pharmaceutical Division
Berlex Laboratories, Inc.
Bristol-Myers Squibb
Geneva Pharmaceuticals, Inc.
Glaxo Wellcome, Inc.
Henry Schein, Inc.
Hoechst Marion Roussel, Inc.
Humphrey Instruments
Mosby-Year Book, Inc.
Pfizer Pharmaceuticals
Schering Plough Corporation
Searle
SmithKline Beecham Pharmaceuticals
Wyeth-Ayerst Laboratories, Division of American Home Products Corp.

AMSUS also thanks the New York and Tidewater Chapters for their generosity in sponsoring the NEW YORK-TIDEWATER CHAPTERS HISTORY OF MILITARY MEDICINE ESSAY AWARD.

GUARD AND RESERVE HEADQUARTERS ROOMS

Air National Guard:

Belle Meade D, Opryland Hotel

Air Force Reserve:

Belmont A, Opryland Hotel

Army National Guard:

Belle Meade B, Opryland Hotel

Army Reserve:

Two Rivers B, Opryland Hotel

Navy Reserve:

Belmont C, Opryland Hotel

AMSUS AUXILIARY

Auxiliary Co-Chairpersons

Mrs. Donna Blanck

Mrs. Bonnie Cuddy

Registration Hours/Tours

Auxiliary registration and/or tickets for the tours may be purchased in Davidson E, Opryland Hotel, during the following times:

Sunday, 16 November - 12:00 p.m. to 5:30 p.m.

Monday, 17 November - 8:00 a.m. to 12:00 p.m.

Tuesday, 18 November - 8:00 a.m. to 12:00 p.m.

Wednesday, 19 November - 8:00 a.m. to 12:00 p.m.

Monday, 17 November 1997

Tour A

"Inside Music City/Backstage Grand Ole Opry"

10:30 a.m. - 3:30 p.m.

Tuesday, 31 October 1995

AWARDS CEREMONY

**Wednesday, 19 November 1997
Opryland Hotel
Tennessee Ballroom**

The Association of Military Surgeons of the United States takes pride in announcing the 1996 Award Recipients. Each of these individuals has done outstanding work in their profession.

On behalf of the entire membership, we heartily congratulate each award recipient. We extend our sincere appreciation to the Awards Committee for their assistance.

JOEL T. BOONE AWARD

Vice Admiral Joel T. Boone, MC USN Retired, a veteran of both World Wars, was Chief Medical Director of the Veterans Administration, personal physician to Presidents Harding, Coolidge and Hoover, and one of the most highly decorated doctors in the history of the Navy. His awards include the Congressional Medal of Honor, the Distinguished Service Cross, the Silver Star Medal with five Oak Leaf Clusters, The Bronze Star Medal, and the Purple Heart Medal with two Oak Leaf Clusters. Vice Admiral Boone was President of the Association in 1949. The Executive Council voted in 1969 to honor Vice Admiral Boone on his 80th birthday by establishing the Joel T. Boone Award. The recipient of the Joel T. Boone Award is chosen by the Executive Council for outstanding service to the Association.

Recipient: **Colonel John T. Digilio, Jr., MS, NYARNG**

Citation: In recognition of his continued support of the Association and his outstanding work for the Chapters Section and the AMSUS Strategic Planning Committee.

RAY E. BROWN AWARD

In 1975, the Executive Council approved the establishment of a Medical Service Corps Award. It was decided that the award should be entitled the Ray E. Brown Award to honor the late Ray E. Brown, who played a major role in health care administration training. The award is given to an individual for outstanding accomplishments in Federal Health Care Management.

Recipient: **Mr. Jonathan H. Gardner, VA**

Citation: In recognition of his outstanding achievements in health care management.

JOHN D. CHASE AWARD FOR PHYSICIAN EXECUTIVE EXCELLENCE

Approved in 1992, the John D. Chase Award for Physician Executive Excellence is presented to a physician who has exhibited sustained outstanding performance and leadership in an executive position. Dr. Chase was Chief Medical Director of the Veterans Administration from 1974 to 1978. He served two years in the Navy and five years in the Army Reserve Medical Corps. The award is presented to a physician in the Army, Navy, Air Force, Public Health Service, or Department of Veterans Affairs to recognize contributions and exemplary accomplishments in Federal Health Care Management.

Recipient: **Major General Leslie M. Burger, MC, USA**

Citation: For his superb leadership and unparalleled performance, and cutting edge initiatives while serving as the Commanding General of the North Atlantic Regional Medical Command.

CLINICAL NURSING EXCELLENCE AWARD

The Clinical Nursing Excellence Award was established in 1989 to recognize and honor accomplishments and work performance in clinical nursing. These contributions, of an outstanding and sustained nature by a nurse, have made a substantial impact on the mission of a Federal Health Agency.

Recipient: **Patricia L. Brown, M.S.N., R.N., C.N.S., VA**

Citation: For her outstanding achievements and contributions in the field of health care which are exemplary and support the mission of improving the federal health services.

AMSUS AWARD FOR EXCELLENCE IN CLINICAL PHARMACY PRACTICE

Approved in 1991, the AMSUS Award for Excellence in Clinical Pharmacy Practice recognizes the leadership role of federal pharmacists in the transformation of pharmacy practice by working closely with other health care providers to optimize pharmacotherapies in a safe, efficacious, and cost-effective manner. The objectives of the award are: (1) To recognize sustained excellence in the provision of pharmaceutical care; and, (2) To grant recognition and promote awareness of Federal pharmacists who distinguish themselves in the provision of pharmaceutical care.

Recipient: **Leslie J. Vollenweider, Pharm.D. (USA)**

Citation: For her countless contributions to primary care and clinical pharmacology education, her tireless enthusiasm, and her caring and compassionate demeanor.

ANDREW CRAIGIE AWARD

In 1959, the Executive Council voted approval of an award for pharmacy. It was decided that the award should be named the Andrew Craigie Award. Andrew Craigie was the first Apothecary General of the United States, and served under General George Washington during the Revolutionary War. This award is presented to an individual for outstanding accomplishments in the advancement of professional pharmacy within the Federal government.

Recipient: **Wallace E. Geck, R.Ph., M.S., VA**

Citation: For his tremendous impact and contributions to pharmacy practice.

FEDERAL NURSING SERVICE AWARD

The Federal Nursing Service Award is presented to a professional nurse from the Federal Nursing Services who has submitted an original paper on the results of a study or scholarly paper that would have an impact on nursing.

Recipient: **Lieutenant Colonel Janet R. Harris, AN**

Citation: For her paper, "Prone Positioning Improves Oxygenation: A Meta-Analysis".

THE FOUNDER'S MEDAL

It was decided in 1941 that AMSUS should have its own award to honor an individual in military medicine. In 1941, the Founder's Medal was created. The Founder's Medal commemorates the first half-century of the work of the Association. It honors the founder of AMSUS, Surgeon General Nicholas Senn, of the Wisconsin and Illinois National Guard. The Founder's Medal rewards exceptionally meritorious acts or distinguished service in the field of military medicine and for AMSUS.

Recipient: **Lieutenant General Ronald R. Blanck, MC, USA**

Citation: For his sustained support and the leadership provided to AMSUS and for the preparation of the Association's 104th Annual Meeting.

THE GORGAS MEDAL

Major General William Crawford Gorgas, MC USA, played a major role in the construction of the Panama Canal. Without his knowledge of yellow fever and his efforts to control the mosquito populations, the Panama Canal might not have been constructed. The Gorgas Medal, in his honor, was established in 1942. The award is given to an individual for distinguished work in preventive medicine.

Recipient: **Colonel Michael W. Benenson, MC, USA**

Citation: For his outstanding accomplishments as a remarkable physician, officer, and scientist. He is the true epitome of military preventive medicine.

DONALD F. HAGEN YOUNG PHYSICIAN AWARD

This award is presented to a physician of the Army, Navy, Air Force, Department of Veterans Affairs or U.S. Public Health Service to recognize early accomplishment and demonstrated future potential in federal health care leadership or to the international community in operational or preventive medicine, including research.

Recipient: **Lieutenant Commander Randall N. Hyer, MC, USN**

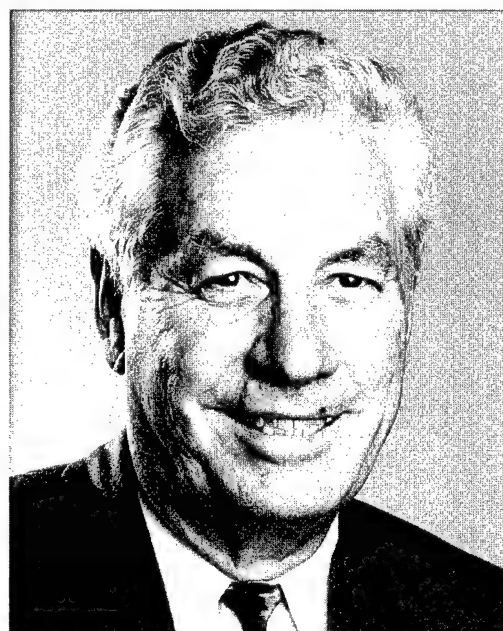

Citation: Lieutenant Commander Hyer has consistently demonstrated his ability as a visionary officer of remarkable capability.

PHILIP HENCH AWARD

Doctor Philip S. Hench first used cortisone in the treatment of arthritis. Doctor Hench's memory has been honored by the establishment of the Philip Hench Award in 1966. Dr. Hench was also a member of AMSUS. The award is given to a physician in the Federal Medical Services who has made outstanding contributions in the field of rheumatology and arthritis.

Recipient: **Edgar S. Cathcart, M.D., D.Sc., VA**

Citation: In recognition of 40 years dedication to research and care for patients in need.

RICHARD A. KERN LECTURE AWARD

The Richard A. Kern Lecture Award was established by the Executive Council in 1979. The award honors Rear Admiral Richard A. Kern, MC USNR Retired. Rear Admiral Kern was Professor of Medicine, Emeritus, Temple University School of Medicine, and a past president of the Association. The lecture given is on Federal Medicine.

Recipient: **Major General Paul K. Carlton, USAF, MC**

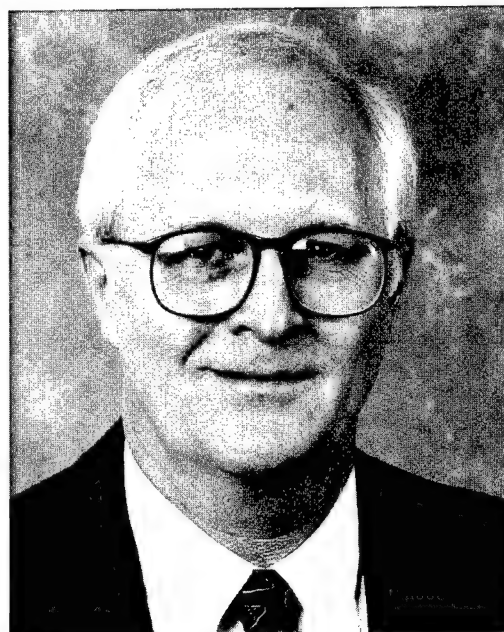

Citation: For his lecture entitled, "Weapons of Mass Destruction".

JAMES A. McCALLAM AWARD

Brigadier General James A. McCallam, a former Chief, United States Army Veterinary Corps, is recognized by the Association with the James A. McCallam Award. General McCallam served in both World Wars. He was the first veterinarian to hold the permanent rank of Brigadier General in the Regular Army. His military awards included the Legion of Merit, the Bronze Star Medal, and the Army Commendation Medal. The James A. McCallam Award is presented to a Doctor of Veterinary Medicine in recognition of outstanding accomplishments in the field of medicine and health.

Recipient: **Michael G. Groves, D.V.M., M.P.H., Ph.D.**
(Colonel, VC, USA Retired)

Citation: In recognition of his enormous contributions to Military Medical Research, Public Health and Veterinary Medicine.

WALTER P. McHUGH AWARD

This award is to be presented to a Medical Service Corps Officer of the Army, Navy or Air Force, or equivalent employee of the Department of Veterans Affairs or U.S. Public Health Service holding the grade of O-1 to O-4 and having not yet reached the age of 40 by the submission deadline. All nominees must be AMSUS members or eligible for membership.

Recipient: **Lieutenant Commander Stephen B. Symonds, MSC, USN**

Citation: In recognition of his unwavering dedication to duty, true concern for customer support, and significant contributions in modernizing medical logistics business practices.

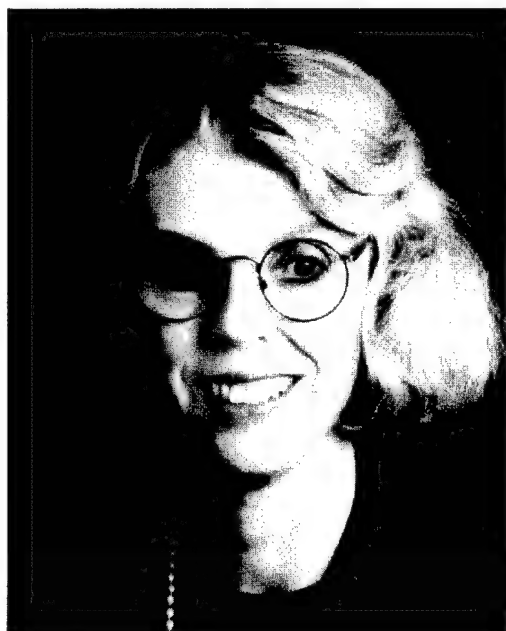

NEW YORK-TIDEWATER CHAPTERS HISTORY OF MILITARY MEDICINE ESSAY AWARD

Beginning in 1991, the Executive Council approved a new essay award, sponsored by the New York and Tidewater Chapters of AMSUS, for essays addressing some aspect of the history/evolution of military medicine. The essay topic is not limited to United States armed forces military medicine.

Recipient: **Captain John R. Prahinski, MC, USA**

Citation: For his paper, "Surgical Resection of the Proximal Humerus in the American Civil War".

No Photo Available

MARY J. NIELUBOWICZ AWARD

In 1986, AMSUS members proposed to the Executive Council that an essay award be established to honor Rear Admiral Mary J. Nielubowicz, NC, USN, in recognition of her outstanding support and encouragement of the Active and Reserve nurses, especially through the AMSUS meetings. The award is presented to the author of an outstanding original essay submitted by a nurse in the United States Navy (Active or Reserve).

Recipient: **Lieutenant Commander Elizabeth Abel, NC, USNR**

Citation: For her paper, "Sexual Risk Behaviors Among Ship and Shore Based Navy Women".

OPTOMETRY OUTSTANDING SERVICE AND RECOGNITION AWARD

Approved in 1992, the AMSUS Optometry Outstanding Service and Recognition Award was developed to recognize members of AMSUS who have contributed significantly to the advancement of Optometry and have provided selfless dedication, leadership and service to their branch of service and the general welfare of AMSUS.

Recipient: **Robert D. Newcomb, O.D., M.P.H., VA**

Citation: For over twenty-five years of outstanding and distinguished federal service to the United States veteran and the vision care professions.

OUTSTANDING FEDERAL SERVICES HEALTH ADMINISTRATOR AWARD

In 1983, an award was established to recognize the Medical Service Corps Officer. The Outstanding Federal Services Health Administrator Award is presented to an individual Medical Service Corps officer of the Army, Navy, or Air Force, or a Health Care Specialist of the Public Health Service or Department of Veterans Affairs who has made conspicuously outstanding contributions in the field of medical administration.

Recipient: **Colonel Thomas M. Driskill, Jr., MS, USA Ret.**

Citation: In recognition of his tremendous contributions to the Federal service and our many beneficiaries.

PHYSICIAN ASSISTANT AWARD

The Executive Council voted approval for a Physician Assistant Award in 1989, to recognize the achievements of physician assistants and the important role the physician assistant plays in health care. This award recognizes outstanding professional service, achievement, and accomplishments by a physician assistant in the Federal health services.

Recipient: **Captain Terry Mathews, USAF, BSC**

Citation: A proven leader, upholding the ideals and traditions of the Air Force Biomedical Sciences Corps.

WILLIAM C. PORTER LECTURE AWARD

In 1958, AMSUS established an award to honor Colonel William Clare Porter, MC USA, a pioneer in military psychiatry. Colonel Porter served as psychiatrist with the New York State Hospital Service until 1918, when he was commissioned in the Army Medical Corps, and served as a psychiatrist in the Army until his retirement in 1947. Colonel Porter received the Legion of Merit. He had a marked influence on the advances in diagnosis and treatment of the neuropsychiatric patient. The William C. Porter Lecture Award recipient is an individual who has made some outstanding contribution to the field of psychiatry.

Recipient: **Thomas B. Horvath, M.D., FRACP, VA**

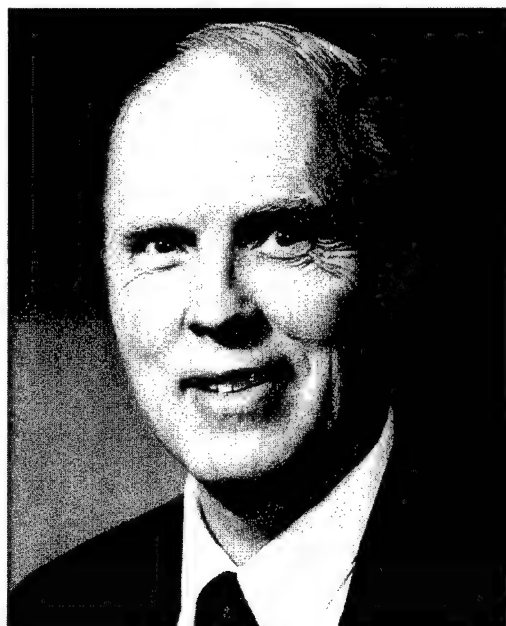

Citation: For his lecture entitled, "The New VA: Are We Ready to Support Our Troops and Veterans - Mental Health Aspects of the NBC Threat".

CARL A. SCHLACK AWARD

Established in 1971, The Carl A. Schlack Award honors the late Captain Carl A. Schlack, DC, USN Retired. Captain Schlack's accomplishments initiated and firmly established dental research in the Navy. As an educator and researcher, his contributions significantly enhanced the stature of the dental profession. The award is given to an individual for outstanding contributions in dental education or dental research.

Recipient: **Robert Shelton Redman, D.D.S., M.S.D., Ph.D., VA**

Citation: In recognition of outstanding achievements in dental research, oral pathology, dental education and clinical patient care.

EDWARD RHODES STITT LECTURE AWARD

The Edward Rhodes Stitt Lecture Award was established in 1954 in honor of Rear Admiral Edward Rhodes Stitt, MC USN. Admiral Stitt was Surgeon General of the Navy for eight years and played a major role in the field of military pathology. Admiral Stitt had an international reputation as an expert in the field of tropical medicine. He was president of AMSUS in 1925 and 1942. The award is given to a laboratory pathologist in the field of laboratory medicine for a lecture on laboratory medicine.

Recipient: **Ted Beals, M.D., VA**

Citation: For his lecture entitled, "VA/DoD Cooperative Review of Veteran's Tissue Specimens".

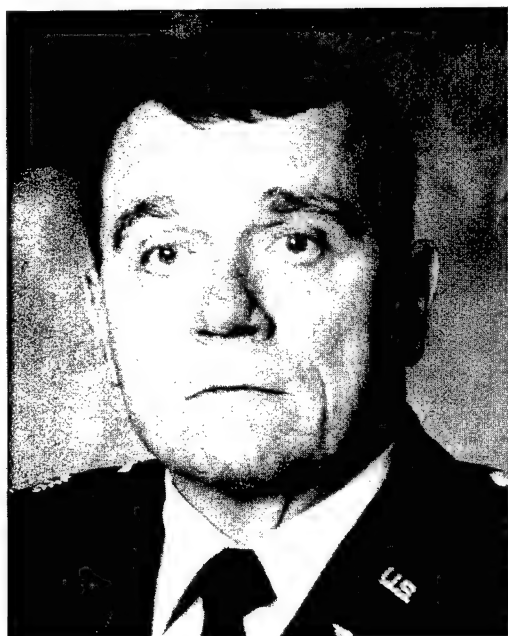

SUSTAINING MEMBERSHIP LECTURE AWARD

In 1958, the Sustaining Members of AMSUS again demonstrated their outstanding support of the Association by establishing the Sustaining Membership Lecture Award. The award is given to an individual in one of the Federal Medical Services who has made some outstanding contribution in the field of medical research.

Recipient: **Val G. Hemming, M.D., USUHS
(Colonel, USAF, MC Retired)**

Citation: For his lecture entitled, "Science, Dogma, Serendipity and the Respiratory Syncytial Virus (RSV)".

PAUL F. TRURAN, JR., MEDICAL MATERIEL AND LOGISTICS MANAGEMENT AWARD

Proposed by the membership, and approved by the Executive Council in 1992, the Paul F. Truran, Jr., Medical Materiel and Logistics Management Award honors the man who made significant contributions to the medical materiel managers and the medical logisticians in the Naval Service. In 1992, Captain Truran was the immediate past Commanding Officer of the Naval Medical Logistics Command at Fort Detrick, Frederick, Maryland. He served distinguishably in the field of medical logistics from all levels - the ground forces of the Marine Corps, Naval clinics and hospitals, the offices of the Bureau of Medicine and Surgery and the Chief of Naval Operations level dealing with major policy issues, and finally as the leader of the Navy's medical logistics field office. The award is presented to a Medical Service Corps Officer of the Army, Navy, or Air Force, or equivalent employee of the Department of Veterans Affairs or U.S. Public Health Service for outstanding accomplishment in the field of medical logistics and the advancement of medical materiel management in the Department of Defense.

Recipient: **Colonel Gordon V. Bryant, Jr., MS, USA**

Citation: For exceptional worldwide Medical Materiel and Logistics Management Support.

SIR HENRY WELLCOME MEDAL AND PRIZE

Born in 1851, Sir Henry Solomon Wellcome worked throughout his life in medical research. Under the terms of his will, The Wellcome Foundation Ltd. profits declared as dividends were to be utilized for "...the advancement of research work bearing upon medicine, surgery, chemistry, physiology, bacteriology, therapeutics, materia medica, pharmacy and allied subjects..." In 1916, Sir Henry Wellcome established the Sir Henry Wellcome Medal and Prize for an essay which reports some original work in the field of Military Medicine, not previously published.

Recipient: **D. Stephen Nice, Ph.D. (USN)**

Citation: For his paper, "Long-Term Health Outcomes and Medical Effects of Torture Among U.S. Navy Prisoners of War in Vietnam".

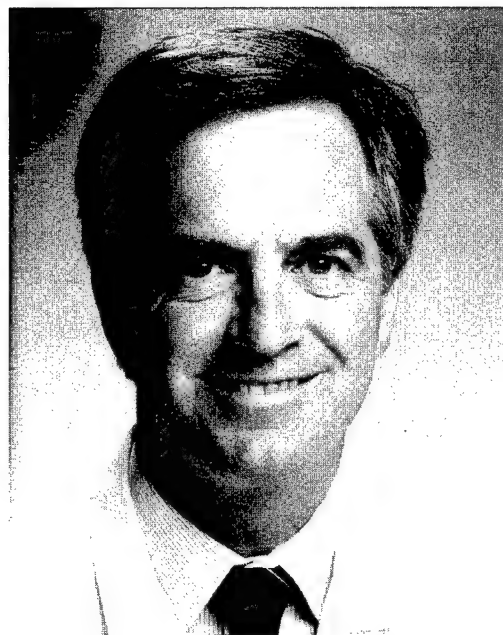

PAUL DUDLEY WHITE AWARD

The Paul Dudley White Award honors the late Doctor Paul Dudley White, universally acknowledged as the founder of modern cardiology. The award is given to an individual who has accomplished and/or contributed a significant advancement in the field of cardiology leading to better health care for the people of the world.

Recipient: **Thomas A. Burdon, M.D., VA**

Citation: Dr. Burdon is an outstanding clinician, a creative researcher, and an excellent teacher with impeccable ethics and integrity.

YOUNG FEDERAL HEALTH CARE ADMINISTRATOR AWARD

Established by the Executive Council in 1981, the Young Federal Health Care Administrator Award recognizes contributions to Federal Health Care Management of an individual in grade 0-4 or lower, or in an equivalent Federal civilian grade.

Recipient: **Major John F. Felins, USAF, MSC**

Citation: Major Felins' commitment and contributions to operational support medicine have greatly enhanced combat casualty care for deployed personnel around the world.

- DEFENSE MEDICAL READINESS TRAINING INSTITUTE (DMRTI)** 1114
Fort Sam Houston, Texas
 "Forward as One"
 Provide information on the mission of the Defense Medical Readiness Training Center. Describes courses offered, scope and concepts for future courses.
- DEPARTMENT OF VETERANS AFFAIRS**
"Department of Defense Collaboration in the Pacific Islands" 1017
 Provides assessment, intervention for Posttraumatic Stress Disorder (PTSD). Also provides a "mini clinic" for those with personal questions regarding PTSD. Elaborates on the mission of Tripler Unit Hospital Augmentation Reserve, Honolulu, HI.
- "VA/DOD Sharing"** 1019,1021
 The VA/DOD Sharing Program continues its impressive growth. Stop by and visit us to learn how this partnership can benefit you!
- "Veterans Integrated Service Networks: Leading Healthcare Delivery in the 'New VA'"** 1025
 VA's new Veterans Integrated Service Networks (VISNs) are aligning resources with local needs and improving customer service to ensure patients get the right care at the right time in the right place at the right cost. Explore our informative WEB sites to learn more about VISNs and the 'New VA.'
- "Persian Gulf Veterans"** 1027
 This exhibit highlights the Department of Veterans Affairs response to the concerns of Persian Gulf War veterans. The VA program includes scientific research, medical care, disability compensation and outreach/education.
- "CIO Implementation & Training Services"** 1029
 You are cordially invited to visit our exhibit.
- "VA Research & Development"** 1118
 The VA maintains a distinguished record of advancing medical care through basic and clinical research in areas of concern to veterans and the general population. Current areas of investigation include cardiovascular problems; prostate, colon, and breast cancer; spinal cord injury; HIV vaccine development; alcoholism; diabetes; and alzheimer's disease.
- "VA Rehabilitation Research & Development"** 1120
 The exhibit presents examples of progress in the Department of Veterans Affairs Rehabilitation and Development program for improving the quality of life for the disabled.
- "VA Blind Rehabilitation Services"** 1124
 This program provides adjustment to blindness counseling, adaptive skill training, prosthetic and sensory aid instruction, medical care, community reintegration, vocational counseling, and benefit assistance utilizing 92 visual impairment service team coordinators, 14 blind rehabilitation outpatient specialists and 9 residential blind rehabilitation centers throughout the country and Puerto Rico.
- EMPLOYER SUPPORT OF THE GUARD AND RESERVE/ AIR FORCE "MIRROR FORCE"** 1212
 You are cordially invited to visit our exhibit.
- FLEET HOSPITAL PROGRAM OFFICE** 133,134
Frederick, Maryland
 A story board look at the evolving world of Navy Fleet Hospitals. The newest innovation in the Naval Expeditionary Medical Support System, capable of being deployed in 20-116 bed increments. Members from the various organizations associated with Fleet Hospitals will be on hand to answer questions and provide information on the future of Navy Deployable Medical Systems.
- GREAT PLAINS REGIONAL MEDICAL COMMAND** 139
Fort Sam Houston, Texas
 "Serving Those Who Provide Care"
 This exhibit communicates the GPRMC's role as an operational command and control headquarters for 10 medical treatment facilities and a regional technical assistance center for all 3 components of the Army, advancing health care and readiness.
- JOINT PROGRAM OFFICE FOR BIOLOGICAL DEFENSE** 1131
Falls Church, Virginia
 "Force XXI Protection"
 Exhibit highlights include vaccine development, current biological detection, identification programs and future developments to meet Joint requirements.
- MEDCOM** 141-145
Fort Sam Houston, Texas
 You are cordially invited to visit our exhibit.
- NASA JOHNSON SPACE CENTER** 125,127,129
Houston, Texas
 "Benefits from Space"
 NASA works closely with non-government entities to develop and commercialize space technologies. Although NASA's most visible achievements have taken place in space, many technologies that put men on the Moon, launch space shuttles and monitor orbiting stations are used in daily life on Earth. These secondary uses, sometimes call space "spinoffs" enhance the lifestyle of Americans and strengthen U.S. economy. The exhibit will demonstrate just a few of these technologies.
- NAVAL HOSPITAL** 1106
29 Palms, California
 Increasing awareness in a remote desert population. Saving lives through early detection. We impress upon our beneficiaries the life saving importance of early detection in the prevention of breast cancer.
- NAVAL SCHOOL OF HEALTH SCIENCES** 132
Bethesda, Maryland
 "Audiovisual Interactive Medical Multimedia (AIMM)"
 The AIMM programs provide Audiovisual Interactive Multimedia to the Navy Medical Department and the Tri-Service community. Sample titles of our programs are: "Management of Chemical Warfare Injuries", "Dermatopathology", "Psychiatry Crisis Intervention", "ACTLS", and "Malaria".

- NAVAL MEDICAL LOGISTICS COMMAND** 116,118
Frederick, Maryland
 Naval Medical Logistics Command presents Interactive Excess Materiel Redistribution Program on the Internet, The Atlas GLS (Geographic Information System) which graphically depicts population and healthcare demand data, and the DOD Prime Vendor Program.
- NAVMASSO** 1009
Chesapeake, Virginia
 "Dental Management Information (DENNIS System)/Shipboard Automated Medical System (SAMS)"
 DENNIS-provides a comprehensive capability to manage dental specific tasks within Navy Dental Healthcare Facilities.
 SAMS-a versatile, automated medical support program developed to improve military health care by reducing the administrative workload of the medical department.
- NORTH ATLANTIC REGIONAL MEDICAL COMMAND** 146,147
 Serving soldiers and families - meeting the needs of Army's "first-to-fight" units - supporting Active and Reserve Army - harnessing academic excellence at Walter Reed Army Medical Center - embracing change to create regional healthcare systems for the future.
- OAK RIDGE NATIONAL LABORATORY** 908
Oak Ridge, Tennessee
 "Linking Emergency Management with Science"
 This exhibit will display products developed by Oak Ridge National Laboratory and the Federal Emergency Management Agency for training medical personnel and emergency response on chemical and biological warfare agents. It will highlight current work on an interactive CDROM on the Medical Management of Biological Agent Casualties.
- OFFICE OF THE ARMED FORCES MEDICAL EXAMINER** 154
 "Aircraft Accident Mishaps"
 The Office of The Armed Forces Medical Examiner provides consultative services in forensic pathology, forensic toxicology, forensic anthropology, and DNA technology, as well as on-site medicolegal investigations of military aircraft accidents and other violent deaths of military personnel.
- OFFICE OF THE ARMY SURGEON GENERAL** 1110
Falls Church, Virginia
 "The Medical Nuclear, Biological and Chemical (NBC) Information Server Training and Education Network"
 (<http://www.nbc-med.org/>)
 The Medical NBC Information Server Training and Education Network is a World Wide Web site that provides critical medical NBC information to a world-wide audience of military and civilian first responders. Exhibit consists of a live and video tape demonstration of the resources and capabilities of the Web site.
- RELIABLE HEALTH INFORMATION, LLC** 115
Manassas, Virginia
 Educational material with emphasis upon the clinical study, "The Lowering of Serum Cholesterol with a Patented Dietary Fiber Supplement."
- RESEARCH TRIANGLE INSTITUTE** 1015
Research Triangle Park, North Carolina
 "Virtual Medical Trainer"
 The Virtual Medical Trainer is PC-based Virtual Reality Training program designed to teach medics how to deal with pre-hospital emergency care. Features a 3D interactive body which allows for patient assessment, including manipulation (airway insertion) and examination (breathing, bleeding, etc.) while detailed patient information is displayed visually.
- TELEMEDICINE TECHNOLOGY AREA** 1011
Fort Detrick, Maryland
 "Total Dental Access: TeleDentistry & Long Distance Learning"
 Long distance video consultations via regular phone lines or the Internet on desktop computers and distance learning over the Internet.
- TRI-SERVICE MEDICAL SYSTEMS CENTER** 117
Brooks AFB, Texas
 "Your Direct Line to Medical Information Systems Support"
 An educational exhibit to inform attendees about the array of services TMSSC offers in the areas of development, training, implementation and sustainment of medical information systems worldwide.
- UNITED STATES ARMY DENTAL** 111
Fort Sam Houston, Texas
 "United States Army Dental Corps Recruiting Display"
 You are cordially invited to visit our exhibit.
- UNIFORMED SERVICES UNIVERSITY OF THE HEALTH SCIENCES (USUHS)** 122
Bethesda, Maryland
 "Department of Preventive Medicine and Biometrics"
 The Department of Preventive Medicine and Biometrics offers programs of study leading to the degree of Master of Public Health, Master of Public Health in Health Services Administration, Master of Tropical Medicine and Hygiene, Doctor of Philosophy in Medical Zoology in the fields of Medical Parasitology & Vector Biology, and Doctor of Public Health.
- UNIFORMED SERVICES UNIVERSITY OF THE HEALTH SCIENCES (USUHS)** 124,126, 128
Bethesda, Maryland
 "F. Edward Hebert School of Medicine and Graduate School of Nursing"
 USUHS - A Center of Excellence for military medical education and research - is the only fully accredited federal school of medicine and graduate school of nursing. Its education, research and consultation programs are related directly to military and disaster medicine, tropical diseases, military medical readiness and adaptation to extreme environments.

- UNIFORMED SERVICES UNIVERSITY OF THE HEALTH SCIENCES (USUHS)** 130
Bethesda, Maryland
 "Military Training Network for Resuscitative and Trauma Medicine Programs"
 The MTN is the DOD representative with the American Heart Association, American College of Surgeons, and the Emergency Nurses Association. DOD activities establish their own CPR, ATLS, TNCC and Army EMT courses with MTN sponsorship. Affiliation is free. Units save thousands in training cost. MTN DOD savings is 20 million dollars.
- UNITED CONCORDIA COMPANIES, INC.** 140
Camp Hill, Pennsylvania
 A premiere dental insurance company administers the TRICARE - Active Duty Family Member Dental Plan (FMDFP). Its expertise, experience, effective and customer friendly administration ranks United Concordia as an industry leader. Its hallmark is outstanding customer service.
- U.S. ARMY AEROMEDICAL RESEARCH LABORATORIES (USAARL)** 138
Fort Rucker, Alabama
 "Research for the Soldier"
 You are cordially invited to visit our exhibit.
- U.S. ARMY CENTER FOR HEALTH PROMOTION AND PREVENTIVE MEDICINE** 137
 "Readiness Thru Health"
 This exhibit provides preventive medicine and health promotion leadership, direction, and services for America's Army. The Center's subject matter experts work together to protect the health and well being of America's Army and optimize soldier effectiveness. Presentation of this Center's exhibit provides an excellent opportunity to show others the mission of the Center.
- U.S. ARMY HEALTH CARE SYSTEMS SUPPORT ACTIVITY** 158
San Antonio, Texas
 "Defense Medical Human Resource System (DMHRS)"
 DMHRS is being developed to manage medical human resource data and programs. The functions to be provided include individual, unit and high headquarters readiness, education and training, personnel assignment and man power management, labor cost assignment, and patient activity workload and management.
- U.S. ARMY MEDICAL MATERIEL AGENCY (USAMMA)** 157
Fort Detrick, Maryland
 USAMMA is a multi-faceted organization under the U.S. Army Medical Research and Materiel Command with three primary purposes: (1) Life-Cycle Management for Medical Materiel Acquisition, (2) Force Projection and Sustainment, (3) Information/Integration of DA & DoD Logistics Systems. USAMMA's vital role in Army Medicine supports operational medical logistics globally.
- U.S. ARMY MEDICAL RESEARCH ACQUISITION ACTIVITY** 114

Wyeth Ayerst welcomes the opportunity to continue their longstanding association with AMSUS through participation in your exhibit program. Our professional representatives will welcome the opportunity to visit with you and discuss any inquiries you may have concerning our products.

ZENECA PHARMACEUTICALS**1204,1205**

Controlling costs will help you do more with less. Providing quality care will keep the Federal healthcare system the best in the world. We believe you have to do both and do them well if you are going to survive in today's health care environment. Recognizing this, Zeneca Pharmaceuticals (formerly Zeneca Pharmaceuticals Group), is prepared to help Federal care providers meet their clinical, financial, and administrative challenges.

ZILA PHARMACEUTICALS, INC.**307**

Zila manufactures and distributes OTC oral health care products for the treatment of canker sores, cold sores and fever blisters. Zila's product line consists of Zilactin Medicated Gel, Zilactin-B with benzocaine and Zilactin-L Liquid with Lidocaine. Introducing our newest arrival, Zilactin Baby Teething Gel for fast relief of teething pain.

ZOLL MEDICAL CORPORATION**224**

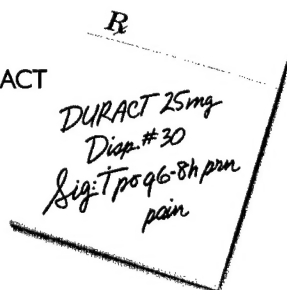

We cordially invite you to visit our exhibit.

NOTES

**Overpowers pain
not performance™**

Simple dosing

- One capsule q6-8h prn
- Some patients taking DURACT with a high-fat meal may require 2 capsules.
- Maximum daily dose: 150 mg (6 capsules/day)

BRIEF SUMMARY

Indications and Usage: For short-term (generally less than 10 days) management of pain. Not indicated for treatment of such conditions as osteoarthritis or rheumatoid arthritis. **Contraindications:** Hypersensitivity to bromfenac. Patients in whom aspirin or other NSAIDs induce asthma, urticaria, or other allergic-type reactions. Severe anaphylactoid-like reactions have been reported in patients receiving NSAIDs (see **Warnings - Anaphylactoid Reactions**). **Precautions - Pre-existing Asthma:** Such reactions may be fatal if not treated promptly. Avoid Duract therapy in patients with known chronic hepatitis. **Warnings: Hepatic Effects:** Elevations of one or more liver tests may occur during Duract therapy. They may progress, remain unchanged, or may be transient despite continued therapy. As with other NSAIDs, borderline elevations (i.e., <3 times the upper limit of normal [ULN]) or greater elevations of transaminases occurred in clinical trials (n=926) at some time during treatment in approximately 15% of Duract-treated patients. Elevations to >3 times the ULN of AST (SGOT) or ALT (SGPT) occurred in 2.7% of these patients at some time during Duract treatment, but the incidence of such elevations during short-term therapy was less than 0.4%. Marked elevations (i.e., >8 times the ULN) occurred in 0.4% of patients in longer-term trials. The liver enzyme elevations seen in clinical trials have been reversible after discontinuation of therapy (see **Adverse Reactions**). Short-term management of pain should generally be less than 10 days duration. Because hepatotoxicity may develop without a prodrome of distinguishing symptoms, if a physician chooses to administer Duract for a longer duration, the patient's transaminases, particularly ALT, should be monitored for evidence of hepatic toxicity after 4 weeks. Duract should be avoided in patients with known severe hepatic disease and should be used with caution in patients with less severe pre-existing liver impairment (see **Precautions**). **Gastrointestinal (GI) Effects - Risk of GI Ulceration, Bleeding and Perforation - Serious GI toxicity, such as inflammation, bleeding, ulceration, and perforation of the stomach, small intestine or large intestine, can occur at any time, with or without warning symptoms, in patients treated with NSAIDs. Minor upper GI problems, such as dyspepsia, are common and also may occur at any time during NSAID therapy. Therefore, physicians and patients should remain alert for ulceration and bleeding, even in the absence of previous GI-tract symptoms. Only one in five patients who develop a serious upper GI adverse event on NSAID therapy is symptomatic. Patients should be informed about the signs and/or symptoms of serious GI toxicity and what steps to take if they occur. The utility of periodic laboratory monitoring has not been demonstrated, nor has it been adequately assessed. The likelihood of developing a serious GI adverse reaction is directly related to the duration of Duract treatment. Several factors have been identified that will, or may, increase the risk of an NSAID-treated patient to develop serious GI events. Studies have shown that patients with a prior history of peptic ulcer disease and/or GI bleeding who use NSAIDs have an overall rate 14 to 17 times higher of developing a GI bleed than patients with neither of these risk factors. Conditions that may increase the risk for GI bleeding include: treatment with oral corticosteroids, treatment with anticoagulants, advanced age, smoking, alcoholism, and deteriorated general health status. Most spontaneous reports of fatal GI events are in elderly or debilitated patients and, therefore, special care should be taken in treating this population. High doses of any NSAID are also associated with a greater risk for GI bleeding. To minimize the potential risk for an adverse GI event, the lowest effective dose should be used. **Anaphylactoid Reactions:** Anaphylactoid reactions may occur in patients without known prior exposure to bromfenac. Duract should not be given to patients with the aspirin triad. The triad typically occurs in asthmatic patients who experience rhinitis with or without nasal polyps, or who exhibit severe, potentially fatal bronchospasm after taking aspirin or other NSAIDs. Fatal reactions to NSAIDs have been reported in such patients (see **Contraindications and Precautions - Pre-existing Asthma**). Seek emergency help in cases where an anaphylactoid reaction occurs. **Pregnancy:** Avoid bromfenac or other NSAID therapy during late pregnancy (risk of premature closure of ductus arteriosus and delayed parturition; see **Precautions - Pregnancy**). **Precautions: General: Renal Effects:** Patients with volume depletion, impaired renal function, heart failure, liver dysfunction, those taking diuretics, and the elderly are at greater risk of overt renal decompensation. Discontinuation of therapy typically results in recovery to the pretreatment state. **Pre-existing Asthma:** About 10% of patients with asthma have aspirin-sensitive asthma. The use of aspirin in patients suffering from aspirin-sensitive asthma has been associated with severe bronchospasm, which can be fatal. Since cross-reactivity, including bronchospasm, between aspirin and other NSAIDs has been reported, do not administer Duract to patients with aspirin-sensitive asthmas, and use with caution in all patients with pre-existing asthma. **Hematological Effects:** Duract inhibits platelet aggregation and may prolong bleeding time. Unlike aspirin, the inhibition of platelet function disappears within 24 hours. Duract does not affect platelet counts, prothrombin time, or partial thromboplastin time. Patients receiving Duract who may be adversely affected by alterations in platelet function, such as those with coagulation disorders or patients receiving anticoagulants, should be carefully monitored. Anemia may occur; it may be due to fluid retention, GI blood loss, or**

an incompletely described effect upon erythropoiesis. **Fluid Retention and Edema:** Fluid retention and edema have been observed in some patients; therefore, use with caution in those with fluid retention, hypertension, or heart failure. **Information for Patients:** The analgesic treatment with Duract should be guided by the patient's response. The individual response to Duract can be determined when the patient perceives a return of pain that necessitates the taking of the next dose. The time between the first and second dose should be a guide to subsequent doses, without exceeding the recommended total daily dose of 150 mg. The lowest effective total daily dose should be taken by the patient to minimize the potential for adverse events. Patients should be alerted that food intake alters the absorption of Duract. Patients should be instructed how to take Duract in relation to meals. Duract or other NSAIDs can cause discomfort and, rarely, more serious side effects, such as hepatitis and GI bleeding, that may result in hospitalization and even fatal outcomes. Patients should be instructed to report any flu-like symptoms (that may be an early signal of hepatic damage), as well as signs and symptoms of GI bleeding. As with other NSAIDs, Duract should be avoided in late pregnancy, because it may cause premature closure of the ductus arteriosus and delay parturition. **Laboratory Tests:** Elevations of one or more liver tests may occur during Duract therapy (see **Warnings - Hepatic Effects**). **Drug Interactions:** Use caution when giving concomitantly with cimetidine, lithium, phenytoin, or warfarin. **Carcinogenesis, Mutagenesis, and Impairment of Fertility:** No carcinogenic effect was demonstrated in rats given oral dosages of up to 0.60 mg/kg (3.6 mg/m²/day), or in mice given oral dosages of up to 7.5 mg/kg (22.5 mg/m²/day) for 2 years. Bromfenac was not mutagenic in *in vitro* tests performed with *S. typhimurium*, mouse lymphoma cells and Chinese hamster ovary cells, an *in vitro* micronucleus test, and an *in vivo* unscheduled DNA synthesis assay. Bromfenac showed no impairment of fertility in male and female rats up to oral dosages of 0.9 mg/kg (5.4 mg/m²/day). **Pregnancy: Teratogenic Effects - Pregnancy Category C:** There are no adequate or well controlled studies of Duract in pregnant women. Use during pregnancy only if the potential benefits justify the potential risk to the fetus. Avoid use during late pregnancy. **Labor and Delivery:** Effects of bromfenac on labor and delivery in pregnant women are unknown. **Nursing Mothers:** It is not known whether bromfenac is excreted in human milk. A decision should be made whether to discontinue nursing or to discontinue the drug, taking into account the importance of the drug to the mother. **Pediatric Use:** Safety and effectiveness have not been established. **Geriatric Population:** In volunteers greater than 75 years of age, the terminal half-life of bromfenac is increased from 1.3 to 2.8 hours. The dosing interval may need to be adjusted (increased) for patients older than 75. **Adverse Reactions:** Data were derived from approximately 2,400 patients who received Duract in single- and multiple-dose studies. As with other NSAIDs, the incidence of adverse drug reactions attributed to Duract was lower in single-dose studies than the incidence associated with repeated dosing. The adverse event rates below refer to the incidence of treatment-emergent symptoms seen in 926 patients in those repeated-dose clinical trials that involved a course of therapy sufficient to include the recommended duration of use (see **Indications and Usage** and **Dosage and Administration**). Adverse events marked with an asterisk occurred in 3 to 9% of patients. Adverse events that occurred in fewer than 3% of patients are unmarked. **Incidence greater than 1%:** Body as a whole: Asthenia, headache*. Digestive system: Abdominal pain*, constipation, diarrhea, dyspepsia (12%), eructation, flatulence, liver enzyme elevations (<3x upper limit of normal)*, nausea*, vomiting. Nervous system: Dizziness*, somnolence*. **Incidence less than 1%:** Body as a whole: Back pain, chest pain, chills, face edema, fever, flu syndrome, generalized edema, infection, malaise. Cardiovascular system: Arrhythmias, hemorrhage, hypertension, migraine, myocardial infarction, palpitations, phlebitis, syncope, vasodilation. Digestive system: Anorexia, colitis, dry mouth, gastritis, gastroenteritis, gastrointestinal hemorrhage, increased appetite, liver test abnormalities (≥3x upper limit of normal), pancreatitis, peptic ulcer, periodontal abscess, positive fecal occult blood test, rectal disorder, stomatitis, tenesmus. Endocrine: Glycosuria. Hematologic and lymphatic system: Anemia, ecchymosis, leukopenia. Metabolic and nutritional: Blood urea nitrogen increased, edema, hypoglycemia, hypokalemia, hyponatremia, serum creatinine increased, thirst, weight gain, weight loss. Musculoskeletal: Leg cramps, myalgia. Nervous system: Abnormal dreams, amnesia, anxiety, confusion, depression, emotional lability, euphoria, hallucination, incoordination, insomnia, libido increased, nervousness, paresthesia, psychosis, tremor, twitching. Respiratory system: Asthma, cough increased, dyspnea, epistaxis, hiccup, hyper-ventilation, pharyngitis, rhinitis, sinusitis. Skin and appendages: Alopecia, pruritus, rash, seborrhea, skin infections, skin ulcer, sweating, urticaria. Special senses: Abnormal vision, blepharitis, cataract, conjunctivitis, dry eyes, ear disorder, lacrimation, photophobia, taste perversion, tinnitus. Urogenital system: Albuminuria, breast pain, dysuria, hematuria, impotence, menstrual disorder, nocturia, oliguria, orchitis, polyuria, pyuria, uterine fibroids enlarged, urinary frequency, uterine hemorrhage, urinary incontinence, urinary tract infection. **Overdosage:** No cases of Duract overdose have been reported. Symptoms following acute NSAID overdose may include development of lethargy, drowsiness, nausea, vomiting, epigastric pain, GI bleeding, or coma. Hypertension, acute renal failure, and respiratory depression may occasionally occur. Empty stomach and employ usual supportive measures. Dialysis is not likely to be effective. **Dosage and Administration:** For short-term (generally <10 days) management of pain, 25 mg every 6 to 8 hours, as necessary, except when taken with high-fat food, when a 50 mg dose may be needed. The total daily dose should not exceed 150 mg. See package insert for full prescribing information.

Caution: Federal law prohibits dispensing without prescription.

This Brief Summary is based on the current circular, CI 4365-1, Issued May 16, 1997.

new

The power of Percocet®

A new nonnarcotic analgesic as powerful as 2 Percocet® tablets¹

1 DURACT 25 mg capsule

2 Percocet® tablets*

- Analgesic efficacy proven in two single-dose oral surgery studies¹
- Indicated for the short-term management of pain[†]

...without narcotic restrictions

- DURACT is an NSAID analgesic
- No patient addiction or abuse²...nonscheduled³

Overpowers pain not performance™

* Each Percocet® tablet contains 5 mg oxycodone and 325 mg acetaminophen.

† Short-term management of pain is generally less than 10 days.

Percocet® (oxycodone and acetaminophen tablets, USP) is a registered trademark of DuPont Pharma.

The appearance of the DURACT capsule is a registered trademark of Wyeth-Ayerst Laboratories.

The most frequent complaints with DURACT relate to the gastrointestinal tract. Serious GI toxicity such as perforation, ulceration, and bleeding can occur. Serious renal and hepatic reactions have been reported rarely.

DURACT should not be given to patients who have previously shown hypersensitivity to bromfenac sodium, or in whom aspirin or other nonsteroidal anti-inflammatory drugs induce asthma, rhinitis, urticaria, or other allergic reactions. Fatal asthmatic reactions have been reported in such patients receiving nonsteroidal anti-inflammatory drugs.
